Dementia Advice & Support

Alzheimer's Society – Nottingham & Nottinghamshire Dementia Wellbeing Service
0333 150 3456 alzheimers.org.uk

The Dementia Wellbeing Service (formerly known as Dementia Connect) is the Alzheimer's Society's personalised support service for those with dementia and their carers, families and friends. It consists of our 1:1 Dementia Support Service, our Carers Information and Support Programme and Cognitive Stimulation Therapy. It's free for service users.

The 1:1 Dementia Support Service puts you in touch with Dementia Advisers who offer support, advice and information. This can include: providing information on dementia and how to live well with it; providing help with legal documents and form completion; signposting to dementia groups and other local community services and access to publications covering a wide range of dementia-related subjects.

The Carer Information and Support Programme (CrISP) aims to improve the knowledge, skills and understanding of those caring for a person with dementia, by providing effective support and up-to-date, relevant and evidence-based information. The programme facilitates peer support and a shared learning experience led by trained Society staff and volunteers.

Cognitive Stimulation Therapy (CST) is for individuals with mild to moderate dementia. It provides meaningful and stimulating activities with the aim of aiding and maintaining memory function. Please note that referrals to CST will only be through the Memory Assessment Service (MAS), Therapeutic Intervention Service (TIS) and the Mental Health for Older People (MHSOP).

To refer yourself or someone you care for, please phone 0333 150 3456

Monday, Tuesday and Wednesday: 9:00am – 8:00pm

Thursday – Friday: 9:00am – 5.00pm

Saturday – Sunday: 10:00am – 4:00pm.

Online support is available 24-Hours a day.

Respite for Carers

This is accessed via the Carers' Hub Service – see above.

Carefree Breaks <https://carefreespace.org/take-a-break/> offers some places to go.

Further information about respite payments for carers

Carers Break (between £600- £1,200) is organised with Adult Social Care (ASC) following a Carer's Assessment (0300 500 8080). Typically the person being cared for would stay in a care home or dedicated Unit, or you can engage private individuals to come to your home. To arrange respite you need to give at least 10 days' notice, provisionally book your break/Care Agency, then ring ASC to access funding. The person you care for must have had a Needs Assessment from ASC.

In an emergency something can be put in place straight away – this eventually will be means tested and back tracked for payment.

Privately paid respite – approach local Nursing/Residential Homes to see what they offer or use private Care Agencies – or a Personal Assistant (use directory on NottsCC website) [Personal Assistant Directory | Notts Help Yourself](#)

Planned Short Breaks – these are available for the person with dementia who will need to be assessed by Adult Social Care to attend a Council run Day Unit. They can also be arranged in a private Residential

or Nursing homes which have space. There is a Directory of Homes with listing of places available from ASC or your GP/Social Prescriber.

Home First Response Service (HFRS) (for the cared for, if you as the carer suddenly unavailable) A short term rapid response service (usually within 2 hours) if you need social care support to remain at home. This is accessed through Adult Social Care 0300 500 8080 (emergency duty team 0300 456 4546)

Carers Space Notts (CSN)

Run by NHS, Notts CC, Notts Carers Association and unpaid carers. It is a strategy group to bring expertise/experiences/insight together in monthly meetings, a place for equal voices, to help shape policies/service design. New website and online monthly meetings available to all.

Appendix: Dementia Diagnosis Pathway

If someone is concerned about cognitive deterioration:

1. See your GP for a brief cognitive assessment and history taking.
2. Depending on the results and patient preference, GP may watch and wait (monitored annually).
3. If considering a referral to MAS (Memory Assessment Service), the GP will need blood tests to rule other causes out. This is classed as a physical health screening.
4. You will potentially be referred to MAS at Stapleford. Expect a letter within 3-4 weeks (currently face to appt but option of a video or telephone if not wishing to attend)
5. MAS Clinic appt – full history taken including carer/family concerns, further memory tests, depending on history and test results then might be sent for CT scan, or possibly further assessment by another member of team.
6. CT Scan if required, at QMC. Usually a long wait (6 months or more)
7. Called back to MAS Clinic to discuss results and diagnosis. If dementia diagnosis confirmed, then signposted to Alzheimer’s Society Dementia Connect Service. Depending on type of dementia, treatment (including possible medication) may be considered to help slow progression.
8. People with confirmed dementia will also be offered a referral to Therapeutic Intervention Service (TIS). This is an eight- week Education Programme, 2 hr sessions for the person with dementia.
9. Following from this, the person with dementia might want to access further Cognitive Stimulation Therapy (CST) sessions, run by the Alzheimer’s Society in the community. CST provides activities to keep brain working and slow down decline.
